

THE FIELD STATION SOLANDER'S EYE

A SCIENTIFIC COOPERATION BETWEEN The IK Foundation, The University of Iceland & The Embassy of Sweden in Iceland

“We must look
for a long time
before we can see.”

David Henry Thoreau (1817-1862)

OBSERVES 24/7/365 – WITHOUT DISTURBING NATURE

GEOLOGY

METEOROLOGY

ZOOLOGY

BOTANY

GLACIOLOGY

ATMOSPHERE

ASTRONOMY

ETC...

A landscape biosphere is observed from a square meter Field Station without disturbing Nature.

The Field Station communicates and transmits data to Mission Control and the World – free to use under a Creative Commons license.
